

INSTRUCTIONS TO AUTHORS

➤ The “Orissa Journal of otolaryngology and Head & Neck Surgery” is a half yearly medical journal indexed , Internationally (Index Copernicus international plc, Poland: [http:// indexcopernicus.com](http://indexcopernicus.com)) & Nationally (Nircar, ISSN 0974-5262) Indexed], which publishes original articles and case reports. Case Reports (clinical records) should be very brief and should be confined to single cases without precedent in Indian literature or to cases which illustrate some, entirely new fact in management and investigation.

➤ All articles are reviewed by one or more experts to determine validity, significance, originality of context and conclusions. Articles should not exceed 5000 words. Case reports should be restricted to 2000 words.

Address the manuscript to:

Dr. K. C. Mallik

Associate Editor; Plot.No.460/C3,
Sector-8, CDA, Cuttack, Odisha,
India, PIN-753014, Cell-
09437092087.

E-mail: editorodishaentjournal@gmail.com

All submissions should include (i) a letter transferring the copyright of manuscript to the Association of Otolaryngologists of India, Orissa State Branch (ii) 2 copies of the manuscript (iii) 2 sets of illustrations, tables etc, state the name and address in full of the author to whom correspondence should be made giving contact numbers and e-mail ID. Authors should not be more than five. The copyright transfer letter can be downloaded from the website of OJOLHNS. <http://ojolhns.com>.

From the year 2017 we are encouraging the authors to submit the articles only on website - <http://ojolhns.com>

➤ Only one copy of the manuscript and illustrations will be returned in case the manuscript is not accepted for publication. **The letter transferring copyright should be addressed to the Associate Editor and should state that, the manuscript has not been published in a part or in whole elsewhere and is solely contributed to the Orissa Journal of Otolaryngology and Head & Neck Surgery. It should mention that, the authors undersigned hereby transfer, assign and otherwise convey all copyright ownership to the Association of Otolaryngologist of India, Orissa State Branch and that the authors do not have any objection to reviewing and editing of this submission of the Editorial Board.**

➤ Manuscripts sent without covering letter transferring copyright, signed by all the authors of the manuscript will not be reviewed and accepted for publication.

1. Manuscript : Manuscripts are sent out for blinded peer review. Do not include author’s names or institutions on text pages or on figures in the manuscript. The

authors’ names and institutional affiliations should appear only on the Manuscripts submitted to Biomedical journals.” Published by the international Committee of Medical Journal, Editors (<http://www.icmje.org>). The manuscript should be computer typed in MS Word (Office 97 onwards) in point.size of 12 on white opaque paper. Use double spacing through out for typing the manuscript. Provide margins of 2.5 cms on all sides. Type on the side of paper only. Submit 2 copies of manuscript. The author (S) should send a copy of the article in a compact disc (CD) along with Publication cost. The diskette should be labelled with the name of the author (S), title of article and the name and version of the word processor used (Microsoft word).

Photographs, if included in the electronic format should be scanned at 300 dpi and sent as jpeg format. Images or photographs should be in separate files or folders.

2. Title Pages: The title of the paper should be typed with capital letters on the top. The name of the authors should be given below the title. The initials and surname should be slated. Titles such as ‘Dr’ or ‘Mr’ and academic qualifications should not be mentioned either below the title or in the footnote. The footnote should mention the names of the authors, the name of the institution, the meeting at which the paper was read and acknowledgements and address for correspondence with the main author. The footnote should appear on the title page. The title of the articles should not contain more than 50 characters.

3. Abstract and keywords: A concise abstract of not more than 200 words is required for all original clinical and basic science contributions to facilitate rapid indexing and assimilation into the medical literature. Abstracts should be organized according to the outline below.

- Objective: Brief clear statement of the main goals of the investigation.
- Study design : eg. Randomized,prospective double blind, retrospective case review)
- Setting: eg. Primary care Vs Tertiary referral centre, ambulatory Vs Hospital.
- Patients: Primary eligibility criteria and key demographic features, interventions: Diagnostic, therapeutic and/or rehabilitative. Main outcome Measure (S): The most essential criterion that addresses the study’s central hypothesis.
- Results: Include statistical measure as appropriate.
- Conclusions : Include only those conclusions that are directly supported by data generalized from that study. Basic Science Reports:
- Hypothesis: Brief clear statement of the main goals of the investigation

- **Background:** Concise, designed for orientation of the reader, who is unfamiliar with this line of investigation.
- Methods:** Succinct summary of techniques and materials used.
- **Results:** Include statistical measures where appropriate.
- **Conclusions:** Include only those directly supported by data generated from this study. Emphasize clinical relevance wherever possible. On the same manuscript page as the structured abstract, list in alphabetical order, key words (maximum of seven) for indexing using Medical Subject Headings (MeSH) from Index Medicus.

Disclosures

Authors must declare the disclosures as given below & also send the certificates regarding permission of ethical committee while submitting the main articles (both prospective & retrospective studies). All these will be displayed at the end of each article before the reference section .

- (a) Competing interests/Interests of Conflict- None/If any
- (b) Sponsorships - None/If any
- (c) Funding - None/If any
- (d) Written consent of patient- Taken/not applicable
- (e) Animal rights- Maintained/not applicable.
- (f) Plagiarism –not done/not crossed the limit.

4. **References:** References must be numbered consecutively according to the order of their citation in the text. Use numbers in parentheses for the citations. Personal communication and unpublished data may be cited as such in the text, but are not listed in the references.

Journal title should be abbreviated according to Index Medicus. Reference should be made giving the author's surname with the year of publication in parentheses. Only papers closely related to the subject should be quoted. Original papers should not have more than 16 references and case reports should not have more than 6 references.

■ It is most important that the authors should verify personally the accuracy of the exact reference. The responsibility of having permission to reproduce. Illustrations and photographs from others published work will rest with the authors.

■ **Illustrations:** Illustrations should be referred to the text as “figs” and given Arabic numbers. They should be marked lightly with pencil on the back with the figure number, caption, names of authors and title of the paper. The top should be marked with an arrow. Illustrations should be of very high contrast and very clear. Line-diagrams should be drawn on separate sheets with black Indian ink on thick white paper. The size should be at least twice that of final reproduction. Lettering should be professionally done and not handwritten or typed. Each illustration should be described in a legend and grouped on a separate sheet of paper. The legends of micro-photographs should mention the stain as well as the magnification. The illustration should not be folded during transmission and protected by cardboard. Two sets of illustrations must be submitted with the manuscript.

The illustration of any patients must be shadowed with black rectangles over their eyes so as to cover / nullify their identities.

5. **Tables:** Tables should be given Roman numbers and referred to in the text as “Table No.’ They should be as few as possible and contain only essential data. They should be type written on separate sheets of paper. The tables must have a descriptive.
6. **Statistics:** Statistics should be completed in consultation with a biostatistician.
7. **Abbreviations:** Abbreviations should be standard abbreviations.
8. **Drug names:** Use generic name with the trade names in parentheses.
9. **Bibliography:** Bibliography should be given at the end of the article on a separate sheet of paper in ICMJE style. The names of the journals should be underlined and should appear with standard abbreviation. The full title of the paper should be given. Mention et al after writing the names of three authors, if the authors are less than three of write the names of all the authors.
